F. Benefit Delivery

There are three ways of delivering benefits at recertification:

Regular Issuance--APProving eligibility results before the CCS run results in "normal issuance" on the monthly master run and mailing for receipt on the first of the month.

Daily Issuance--APProving eligibility results after the CCS run results in "initial issuance" benefits which are mailed the following day.

007 Issuance--To issue stamps when ACCESS is down (see P-2510 G#3).
